

New: a safe, self-serve option for the office

Serenade® single-cup brewer now with touchless technology for added safety.

Coffee, tea and other refreshments are the **#1 workplace benefit** for employees¹

Today's employees seek safety along with convenience.

Members of the current workforce want their beverage experience to be customized to their preferences - and equipment that is safe.

¹Datassential, B&I Snacking Report, 2019

Safety in every cup

The Serenade® Single-Cup Brewer is now tech-enabled with touchless beverage dispensing technology (VirtualTouch™). So you can safely and easily offer the freshly brewed Starbucks whole bean experience that your employees can count on throughout the work day, in addition to other beverage favorites.

Fully automated touchless coffee experience via smartphone

How It Works

Scan

Your employees simply scan a QR code on the machine with their smartphone camera.

Order

The mobile interface guides them through their drink selection via their smartphone.¹

Enjoy

Watch the drink progress unfold on your equipment's screen.

Requirements

Hardware and annual subscription for BUNNlink with new equipment or a field upgradeable service kit. You will also need the latest VirtualTOUCH Dispense software update installed. Please contact your Solutions Lab representative to learn more.

BUNNlink currently active w/ LTE Hardware
