

# Serenade® Single-cup Brewer

Upgrade now to touchless technology for added safety.

**Serenade® Single-Cup Brewer with VirtualTOUCH™.** This touchless beverage dispensing technology enables consumers to customize their freshly brewed Starbucks® whole bean experience via their smartphone.

## Update Today

Please note the following next steps based on machine status

<ul style="list-style-type: none"><li>BUNNlink currently active w/ LTE Hardware</li></ul>	→	Requires software update only	→	<b>Office Coffee:</b> Obtain software updates directly from the Bunn Online Learning Center and perform software upload.
<ul style="list-style-type: none"><li>BUNNlink currently active w/ CDMA Hardware</li><li>BUNNlink currently Deactivated</li><li>Serenade deployed without BUNNlink</li></ul>	→	Requires new BUNNlink LTE Board kit and Software update	→	<b>Office Coffee:</b> Order and install new BunnLink LTE Board hardware (SKU #90077582). Software updates come with kit in USB, also available from the Bunn Online Learning Center.
<ul style="list-style-type: none"><li>New Serenade ®</li></ul>	→			<b>Office Coffee:</b> Order standard Office Coffee Serenade® SKU (SKU #90075679). Order and install BUNNlink kit hardware. Activate BUNNlink.

## Considerations

BUNNLink kit includes: LTE communications board, antenna, USB stick with most recent version of machine software, installation instructions and 1 year of BUNNlink.  
Hardware and annual subscription for BUNNlink and VirtualTOUCH™ dispense software update required.  
Technology compatible with all smartphones with QR code reader: Android and Apple (iOS 11 and above).
